

Good evening everyone,

For those of you who don't know me my name is Adam Wright. I currently am employed as the maintenance Team Leader here at Glynde and have been working for LHI for almost 7 years now. Last year I was offered the opportunity to enrol in certificate 4 Frontline management. I was greatly excited about this especially since I had been pestering HR in my performance review forms.

I have now attained my certificate and would like to sincerely thank LHI for allowing me this achievement. I have learnt more than I ever expected about Team building, continuous improvement, OH&S, personality profiling and most importantly myself. I feel this knowledge will greatly benefit LHI by helping me to provide the best possible maintenance service to LHI and our residents. I would also like to thank the entire management team for seeing the potential within me.

I feel in my time working here I have grown much as a person and I plan to continue to improve myself, my team and the service we provide to LHI and our residents.

Thank you.
